

Johnston Hall

Minneapolis, MN

Integrity Built

Johnston Hall is one of the most significant structures on the University Mall at the University of Minnesota. During the summer of 2011 Loeffler Construction & Consulting supported John A. Dalsin & Son Inc. Roofing with an exterior renovation that included masonry restoration of stone parapets, new roofing, and new exterior windows. The project was challenging due to the construction taking place near the Northrop Memorial Auditorium and the constricting site.

Client - University of Minnesota

Architect - INSPEC

Construction Cost - \$1.2 Million

Project Size - 11,400 SF

Loeffler Role - General Construction
